

What to Do After a Landslide Occurs

- **01.** Stay away from the impacted area and remain alert for more landslides.
- **02.** Listen to local emergency news broadcasts for information about the event.
- **03.** Be alert for flooding, which can occur after a landslide.
- **04.** If in an impacted area, safely direct rescuers to people who need help.
- **05.** Check on neighbors who may require additional help after an emergency.
- **06.** Look for broken or damaged utility lines and report them. Do not touch downed power lines or gas or propane tanks.
- **07.** Be alert for damaged roadways.
- **08.** Get a professional foundation assessment to ensure the security of your home's foundation, chimney, outbuildings, fencing, and other areas.
- **09.** Replant damaged areas to stop future erosion of the ground cover.
